

SAGIREV

Nascida em 1994, a SAGIPER posicionou-se no mercado como um parceiro a ter em conta no sector da construção civil.

O diálogo permanente com diversos intervenientes deste segmento, permite oferecer soluções de qualidade para fazer face às crescentes exigências e desafios da edificação contemporânea.

O nosso perfil é um revestimento com qualidade própria que decora qualquer tipo de ambiente dando asas à imaginação, tanto para revestir, decorando as suas paredes, como para criar tectos falsos em qualquer tipo de tecto.

Born in 1994, SAGIPER positioned itself in the market as an important partner in the construction industry. The continuous dialogue maintained with different players of this sector, allows the development of solutions that meet and very often exceed the increasing demands and challenges of contemporary building.

Our PVC profile offers a very high quality finishing and it's mostly used for decorating spaces giving the author freedom to create at will. It can be used for decorating your walls, as well as false ceilings in almost every ceiling structure.

Crée en 1994, SAGIPER s'est placée sur le marché comme un partenaire à prendre en compte dans le secteur de la construction civile.

Le dialogue permanent avec les différents intervenants de ce secteur, permet d'apporter des solutions de qualité pour répondre aux exigences croissantes et aux défis de la construction contemporaine.

Notre profilé est un revêtement de très haute qualité qui permet de décorer tous types d'environnements, donnant des ailes à votre imagination, autant pour habiller et embellir vos murs que pour créer vos faux-plafonds quel que soit le type de plafond.

exterior metallic

A combinação de doze cores da gama Metallic, destaca-se por conferir um brilho metálico aos vários espaços, obtendo um toque de elegância e modernismo tanto no interior como no exterior.

outdoor metallic

The twelve colours combination of the Metallic range, detach itself by granting a metallic shine in several spaces, acquiring an elegant and modern touch both inside and outside.

extérieur metallic

La combinaison des douze couleurs de la gamme Metallic, se distingue offrant une brillance métallique aux divers espaces, donnant une touche d'élégance et de modernisme à l'intérieur comme à l'extérieur.

exterior

Vinte e seis cores de excelência combinam texturas que se aproximam da tonalidade natural da madeira, totalmente aplicáveis no exterior.

A gama apresenta uma resistência às adversidades climáticas conferida pela película PVC (RENOLIT) obtendo total protecção aos raios UV, humidade e variações de temperatura.

outdoor

Twenty six colors of excellence combine textures approaching the natural tones of wood, fully applicable in the exterior.

The PVC film (RENOLIT) provides, throughout the range of products, a total UV protection, bad weather resistance, as well as humidity and temperature variations.

revestimentos de parede

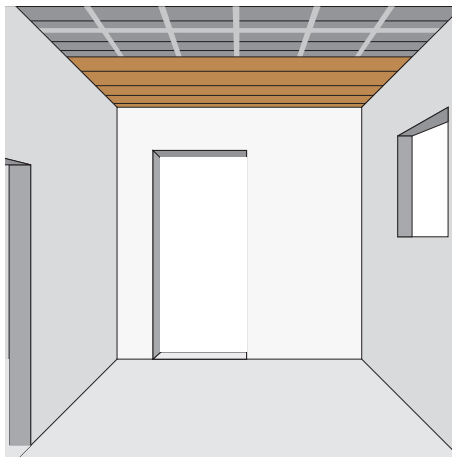

A sua colocação pode fazer-se directamente na parede com a ajuda da nossa ripa em PVC.

wall paneling

The placement can be made directly to the wall with our PVC clapboard.

Revêtements muraux

Leur application peut être faite directement sur le mur à l'aide de nos tasseaux PVC.

tecto falso sem estrutura

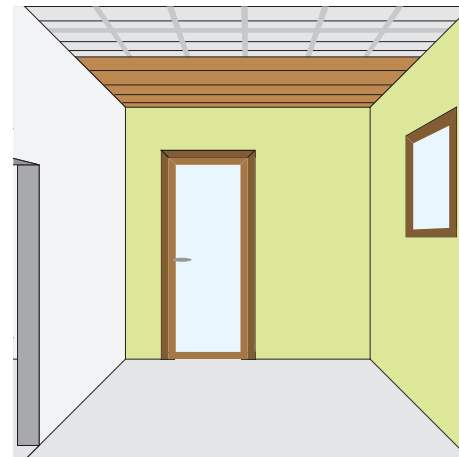

A sua colocação pode fazer-se directamente ao tecto já existente, com a ajuda da nossa ripa em PVC.

False ceiling without framework

The placement can be made directly to the existing roof, with our PVC clapboard.

Revêtements muraux

Leur application peut être faite directement à la toiture existante, à l'aide de nos tasseaux PVC.

tecto falso com estrutura

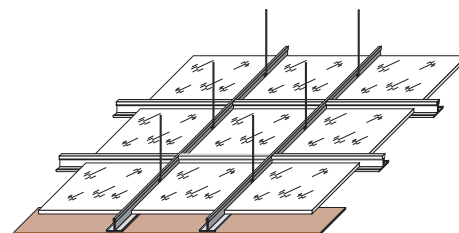

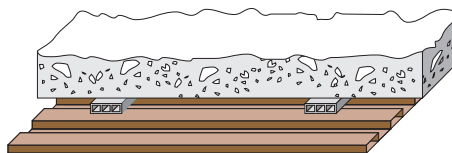

Será necessária uma estrutura metálica, pelo que o tecto terá de levar um rebaixamento.

False ceiling with framework

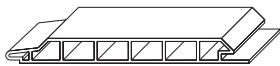

You will need a metal structure, so the roof will have to be lowered.

Faux plafond avec structure

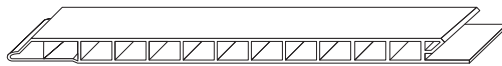

Une structure métallique sera nécessaire, de manière à abaisser la hauteur du plafond.
